These known donors have responded to a survey and self reported their devotion to saving the environment. Caring for nature and all of its creatures are on top of mind for these donors. These environmentalists want to protect the environment, conserve natural resources and leave things a little better for the next generation.

Charitable donors to the premium mail programs of Trilogy Target Solutions have been combined to create a masterfile which has been enhanced to provide additional selections.

Individuals on this Enhanced Masterfile have contributed to at least one premium ask from Trilogy's portfolio of clients including veteran, children's, religious, animal welfare, third world and health appeals. The data has been enhanced with self reported survey information provided by a third party.

These contributors are responsive to green, environmental, wildlife and nature related appeals, catalogs and magazine offers.
